ORR, LISTON A. AND LIEBERMAN, EDWARD M. Studies of the cardiac-like action potential in crayfish giant axons induced by platinized tungsten metal electrodes 1

WOLFGANG, WILLIAM J. AND RIDDIFORD, LYNN M. Cuticular mechanics during larval development of the tobacco hornworm, *Manduca sexta*. 19

GÖTZ, KARL G. Course-control, metabolism and wing interference during ultralong tethered flight in *Drosophila melanogaster* 35

GOLDBERG, J., COLMERS, W., EDSTROM, J. AND LUKOWIAK, K. Suppression of sensory to motor synaptic transmission and narrowing of the sensory neurone action potential by arginine vasotocin in *Aplysia californica*. 47

FEBRY, RICARDO AND LUTZ, PETER. Energy partitioning in fish: the activity-related cost of osmoregulation in a euryhaline cichlid 63

MUTUNGI, GABRIEL AND JOHNSTON, IAN A. The effects of temperature and pH on the contractile properties of skinned muscle fibres from the terrapin, *Pseudemys scripta elegans* 87

MORGAN, KENNETH R. Temperature regulation, energy metabolism and mate-searching in rain beetles (*Pleocoma* spp.), winter-active, endothermic scarabs (Coleoptera) 107

BARNHART, M. CHRISTOPHER AND MCMAHON, B. R. Discontinuous carbon dioxide release and metabolic depression in dormant land snails 123

ARP, ALISSA J., CHILDRESS, JAMES J. AND VETTER, RUSSELL D. The sulphide-binding protein in the blood of the vestimentiferan tube-worm, *Riftia pachyptila*, is the extracellular haemoglobin. 139

WATSON, R. DOUGLAS, WILLIAMS, TAMMY K. AND BOLLENBACHER, WALTER E. Regulation of ecdysone biosynthesis in the tobacco hornworm, *Manduca sexta*: titre of the haemolymph stimulatory factor during the last larval instar 159

BOLLENBACHER, W. E., GRANGER, N. A., KATAHIRA, E. J. AND O'BRIEN, M. A. Developmental endocrinology of larval moulting in the tobacco hornworm, *Manduca sexta* 175

ELSON, ROBERT C. Integration of wing proprioceptive and descending exteroceptive sensory inputs by thoracic interneurones of the locust 193

ELSE, P. L. AND BENNETT, A. F. The thermal dependence of locomotor performance and muscle contractile function in the salamander *Ambystoma tigrinum nebulosum* 219

PERRY, S. F. AND VERMETTE, M. G. The effects of prolonged epinephrine infusion on the physiology of the rainbow trout, *Salmo gairdneri*. I. Blood respiratory, acid–base and ionic states 235

VERMETTE, M. G. AND PERRY, S. F. The effects of prolonged epinephrine infusion on the physiology of the rainbow trout, *Salmo gairdneri*. II. Branchial solute fluxes 255

VERMETTE, M. G. AND PERRY, S. F. The effects of prolonged epinephrine infusion on the physiology of the rainbow trout, *Salmo gairdneri*. III. Renal ionic fluxes. 269

YEE, AUDREY, BURKHARDT, JAMES AND GILLY, W. F. Mobilization of a coordinated escape response by giant axons in the ophiuroid, *Ophiopteris papillosa* 287

TAYLOR, E. W., TYLER-JONES, R. AND WHEATLY, M. G. The effects of aerial exposure on the distribution of body water and ions in the freshwater crayfish *Austropotamobius pallipes* (Lereboullet) 307

SUSSWEIN, ABRAHAM J., ACHITUV, YAIR, CAPPELL, MITCHELL S. AND BENNETT, MICHAEL V. L. Pharyngeal movements during feeding sequences of *Navanax inermis* (Gastropoda: Opisthobranchia) in successive stages of dissection 323

PENNYCUICK, C. J. Flight of auks (Alcidae) and other northern seabirds compared with southern procellariiformes: ornithodolite observations. 335
